Introducing HEX

As your dedicated logistics support service provider, Hacı is proud to present HEX – **Hacı E-Logistics System** – a powerful e-logistics platform designed to facilitate cargo information flow along the supply chain. With HEX, you can easily manage your air cargo inventory online, thereby streamlining daily operations and maximising your operational efficiency.

HEX簡介

作為您值得信賴的物流支援服務供應商，香港空運服務有限公司（以下簡稱Hacı）深明您對運作效率及空運貨物資訊透明度的需求，因此Hacı誠意為您獻上**HEX電子物流資訊系統**——一個功能全面，並有效促進供應鏈裡貨物資訊流通的電子物流資訊平台。HEX讓您在網上輕易地管理您的空運貨物記錄，簡化運作流程，從而提高業務效率。

Functional characteristics:

- Interactive warehouse management system – facilitates operations down to house air waybill level
- Real time cargo status monitoring – connects to real time cargo status information and Hactl's Community System for Air Cargo (COSAC)
- Full visibility of cargo records – displays complete inventory records
- Links with the innovative GPSeal (an integrated system combining Global Positioning System, electronic seal and short messaging system) – online cargo tracking and tracing for SuperLink China Direct consignments while in transit

HEX offers functions that are practical and user-friendly:
