## Hacis – Your Integrated Logistics Support Service Provider

Headquartered at SuperTerminal 1 (ST1) at Hong Kong International Airport, Hong Kong Air Cargo Industry Services Limited (Hacis) offers a range of innovative logistics support services and IT services covering import and export logistics in Hong Kong as well as in southern China. Our services are designed to meet our customers' and business partners' demand for time-definite, information-enabled and reliable logistics management solutions to enhance operational efficiency and cargo connectivity.

# Airport Direct

One of the core services offered by Haxis, the Airport Direct service is a one-stop solution covering every aspect of your import and export cargo handling in Hong Kong. Its import service covers a complete range of logistics support services including cargo collection, cargo sorting, warehousing and local delivery in Hong Kong, while the complementary export service provides a dedicated facility for efficient export cargo handling at SuperTerminal 1.

## *Airport Direct* Import Service

Airport Direct Import provides you with tailor-made services to support your import cargo operations at SuperTerminal 1, round-the-clock.

### 1) Cargo collection

Collects cargo at SuperTerminal 1 on your behalf.

### 2) Cargo sorting

Sorts cargo down to house waybill level.

### 3) Cargo storage

Provides short-term free cargo storage at SuperTerminal 1 according to your needs.

### 4) Cargo release

Releases cargo according to your instruction, or deliver cargo direct to your warehouse or to consignee.

### 5) Other value-adding services

Offers wide-ranging value-adding services including documentation handling, cargo check, customs clearance and other initiatives to meet your cargo needs.

## Complete Logistics Solution of *Airport Direct* Import Service

### Traditional Logistics Flow

### Airport Direct - Import Service Logistics Flow

# Import Service

## Key Benefits

### Increased efficiency

- **Direct delivery:**  
Straight from Hong Kong International Airport to your warehouse or to consignees' warehouse.
- **Round-the-clock service:**  
Provides time-assured delivery service.
- **Online management of cargo data:**  
The HEx e-Logistics System allows you to access consignment records and manage cargo inventory anytime, anywhere.

### Cost savings on multiple fronts

- **Cost effective:**  
Charged by actual weight of import shipment handled, thereby eliminating warehousing fixed expenditure and lowers operational risk.
- **Sufficient warehousing capacity:**  
Minimizes your constraints on capacity and thus saving your resources during peak season.
- **Centralised cargo handling at SuperTerminal 1:**  
You no longer need to transport cargo to and from warehouse, thus saving transportation costs.

## Service Centre – Adding Value to Your Operations

As a valued Airport Direct Import service customer, you can exclusively enjoy the services and benefits offered by the Airport Direct Service Centre. Located at SuperTerminal 1, the Centre is your ideal location for handling air cargo documentation and interacting with your customers – in a totally secure and private setting:

- Ideally located on the ground floor of the South Office Block of SuperTerminal 1.
- Flexible modular design and fully furnished, from filing cabinets to broadband internet access.
- Common service counters for document handling and interface with customers.
- An extensive CCTV network provides round-the-clock surveillance.
- Opens round-the-clock to meet your operational schedule.

# Airport Direct Export Service

Airport Direct Export service is a total logistics support solution with a dedicated Airport Direct Export Handling Centre providing a common facility at the airport for cargo agents to conduct all export cargo handling operations. Scope of service includes:

## 1) Cargo handling and on-site cargo acceptance

- Provides a fully-equipped, common cargo handling facility for cargo handling, cargo consolidation and immediate tender to Hactl for cargo acceptance and issuance of Reception Checklist (RCL).

## 2) Empty ULD collection

- Offers on-site collection of empty ULDs according to your instructions.

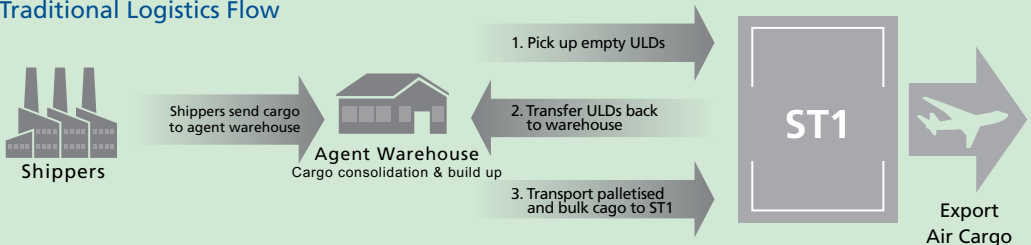

## 3) Cargo storage

- Provides storage facilities for temporary storage of export cargo.
- Special facilities including temperature controlled rooms and dangerous goods store.

The Airport Direct Export Handling Centre provides an interface connecting export cargo southbound from Hacis' Inland Cargo Depots located in the PRD, to provide enhanced connectivity for the factory-to-aircraft logistics chain. (Please refer to brochure of SuperLink China Direct Southbound service for more information of Hacis' Inland Cargo Depots.)

## Effective Logistics Solution of Airport Direct Export Service

### Traditional Logistics Flow

### Airport Direct - Export Service Logistics Flow

# Export Service

## Key Benefits

### Time-assured reliability

- Offers the combined advantages of being on-airport and adjacent to Hactl's SuperTerminal 1, enabling swift and seamless cargo reception by Hactl.

### Effective cargo management

- Fully-equipped common facility for cargo agents to conduct all the required export cargo handling operations.

### Enhanced efficiency

- Reduces unnecessary triangular traffic and duplicated handling for empty ULD collection and dispatch of cargo to SuperTerminal 1.

### Cost savings on multiple fronts

- Charges are based on actual weight of export shipments handled, saving your fixed costs arising from warehousing rental and equipment purchase.

### Seamless connectivity

- Export cargo collected from Hacis' Inland Cargo Depots located in the Pearl River Delta can be directly delivered to the Centre, providing seamless connectivity between Hong Kong and the vast manufacturing base.

### Highly secured cargo handling

- Round-the-clock surveillance by extensive CCTV network and Hactl Security Control Office.
